Professional Summary:

A highly driven and detail-oriented Information Technology graduate from the Central University of Technology with a solid foundation in software development, software testing and database management/Information Systems. I am also passionate about technology, innovation, and continuous learning, always eager to expand my knowledge and contribute effectively to a dynamic team.

Technical Skills:

Software & productivity Tools
Microsoft Office Suite: Word, Excel, PowerPoint, Outlook, Access

Programming Languages, Frameworks & Development Tools
C# (C sharp), Dart
Flutter, ASP.NET

Databases & Platforms
Visual Studio Code (VS Code), Visual Studio, & Firebase

Others
SQL, Html, CSS, figma

Education:

Diploma in Information Technology: Central University of Technology, **2024.**

National Senior Certificate (Matric): Mamellang Thuto Secondary School, **2020.**

Certifications

Udemy: ASP.Net Core 9

Soft Skills:

Excellent teamwork and collaboration in group projects.

Adaptable and quick to learn new tools or technologies.

Interests:

Exploring emerging technology trends

Learning new programming languages and frameworks

Academic Projects

Hospital Management App

- Developed a cross-platform mobile application using flutter & firebase.
- Integrated a real-time database functionality to improve user experience.
- Implemented secure user authentication.
- Tested for input validation, navigation

Personal Projects

Simple Flutter Chat App

- Developed a minimal real-time chat application using Flutter for cross-platform UI.
- Integrated Firebase Authentication for secure user login and registration.
- Implemented Cloud Firestore for real-time messaging and data synchronization.
- Designed responsive and user-friendly chat interfaces.

Student Management System (ASP.NET Core MVC)

- Developed a full-stack Student Management System using **ASP.NET Core MVC**, **C#**, **Entity Framework Core**, and **SQLite**.
- Implemented secure authentication and role-based authorization using **ASP.NET Core Identity**, supporting Admin, Lecturer, and Student roles.
- Built CRUD modules for students, lecturers, departments, courses, enrollments, and grades with Entity Framework Core Code-First and database migrations.
- Applied relational database design, model validation, and role-based access control to create a secure and scalable academic management application.
